Reviews from our happy customers:

My husband and I wanted to personally thank the Mr Wet Wall team for the amazing work that they did renovating our ensuite! The process was simple, efficient and the finished product was outstanding. Their services were affordable with a high quality design and finish.

Kahlia ★★★★★

Fantastic range of panels not only for the shower but also for the ceiling and nice helpful staff who assisted throughout our project.

Jody ★★★★★

I now have an out-of-this-world shower, no grout, and best of all - no leaks! If you hate cleaning grout as much as me you'd give these guys a go.

Lorraine ★★★★★

Where can you install Wet Wall panels?

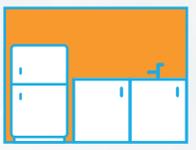

Shower Areas

Whole bathroom

Laundry Rooms

Kitchens

ANYWHERE!

Luxury alternatives to tiles for both renovations & new homes

Grout FREE **100% Waterproof** **Fire Retardant** **100% Mould Resistant** **Super Quick Install** **Easy to Clean**

Our panels are the single most cost effective, easy-to-install alternative to tiles.

They are full-height, floor-to-ceiling, click-together waterproof panels, designed for areas subject to frequent wetting as well as standard rooms.

Ideal for bathrooms, bedrooms, laundries, shower areas, changing facilities & food prep areas.

You can install the panels over existing tiles, saving the demolition time, money & mess.

Your full room covered in a day!

 Free Shipping on all orders over 8 panels!

Installation

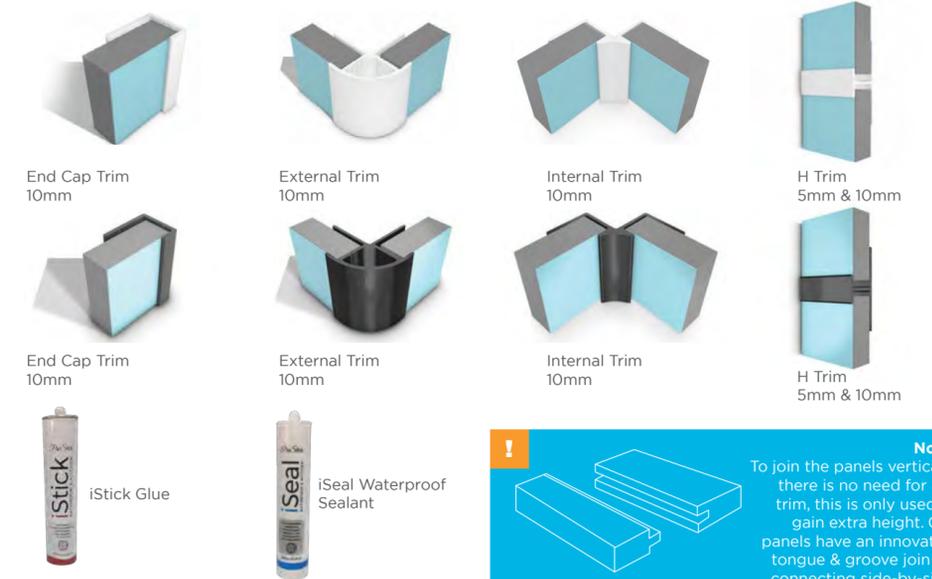

Installation couldn't be easier.

Our panels click into place using our innovative tongue & groove system. You can even install the panels directly onto tiles, fibre cement sheets or brickwork!

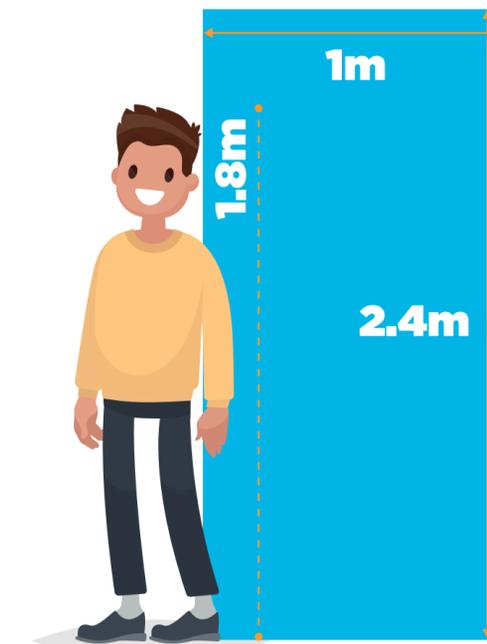

A full installation guide can be found at www.mrwetwall.com/installation

Accessories

In order to install our Wet Wall panels you'll need to buy the right trims and glue. All trims come in black, white, beige and silver.

Note!
To join the panels vertically there is no need for a H trim, this is only used to gain extra height. Our panels have an innovative tongue & groove join for connecting side-by-side.

All panels are 2.4m x 1m.
The White Gloss and Carrara Marble are available in 2m sizes.

If you need to achieve heights higher than 2.4m, we advise using a H trim.
