DISCOVER THE STRENGTH & BEAUTY OF MERBAU TIMBER

Merbau timber is renowned for its rich, reddish-brown hue, exceptional durability, and natural resistance to harsh elements.

Sourced from the tropical forests of Southeast Asia and the Pacific, this hardwood is a favorite for decking, fencing, pergolas, and other outdoor structures—offering both beauty and strength that lasts for decades.

With its high oil content, Merbau timber is BAL29-rated and naturally resistant to rot, decay, and termites, making it a reliable choice for outdoor projects.

Its striking grain patterns and sturdy composition ensure a finish that stands the test of time, even in the toughest conditions.

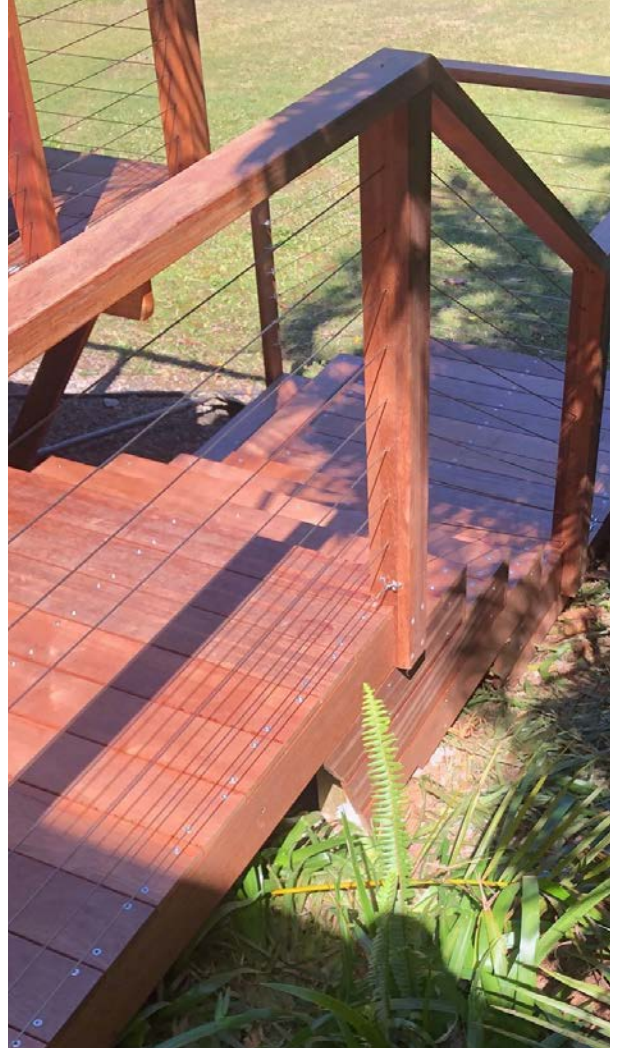

MERBAU

MERBAU POSTS LAMINATED GL 17

SIZE	LENGTH				
90 x 90	2.4m	2.7m	3.0m	3.6m	5.4m
100 x 100	2.4m	2.7m	3.0m	3.6m	5.4m
140 x 140	2.4m	2.7m	3.0m	3.6m	5.4m

GL17 Merbau Laminated Posts are engineered to stay straighter for longer, minimising warping and twisting, making them an ideal choice for structural and decorative applications.

They're perfect for a variety of applications, including pergolas, decking, carports, stair supports, fencing, and feature posts.

MERBAU SOLID POSTS

SIZE	LENGTH		
100 x 100	2.4m	2.7m	3.0m
140 x 140	2.4m	2.7m	3.0m

Designed for both style and strength, these solid Merbau timber posts offer lasting durability, making them a reliable choice for any building project.

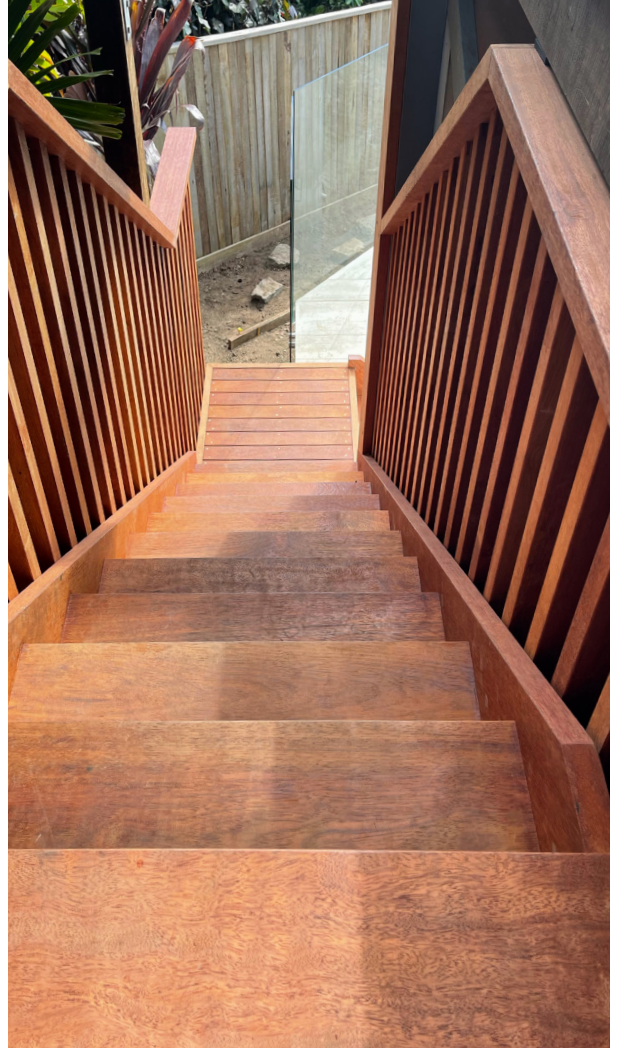

Well-suited for joinery, decking, and rails, making them ideal for both indoor and outdoor applications.

MERBAU SOLID TREADS

SIZE	LENGTH	
250 x 47	1.2m	5.4m

Merbau F27 structural rating timber stair treads are a great way to enhance your outdoor space, an ideal choice for structural and decorative applications.

Their dense, durable nature makes them less prone to warping, cracking, or deteriorating, ensuring they provide lasting strength and reliability.

MERBAU FRAMING LAMINATED GL 17

SIZE	LENGTH	
90 x 42	4.8m	5.4m
140 x 42	4.8m	5.4m
190 x 42	4.8m	5.4m
240 x 42	4.8m	5.4m
290 x 42	4.8m	5.4m

Merbau Framing Laminated GL17 is a popular choice for construction due to its Manufacturing method of Lamination leaving your framing straighter for longer.

Merbau is a great choice for structural and decorative applications, ideal for framing, rails, stairs, and other structural elements.

MERBAU HANDRAIL

MERBAU LADIES WAIST REBATED FJ
66 x 66 x 5.4m

Ladies Waist handrails are designed to be used in Traditional, Victorian, & Federation styles homes.

Merbau Handrails are perfect for outdoor use. The classic Ladies Waist profile add warmth and sophistication to staircases and decks.

MERBAU BREADLOAF REBATED FJ
66 x 66 x 5.4m

Merbau Handrails suit for outdoor spaces.

With rich hues and a sleek breadloaf profile, they complement modern and contemporary designs, offering a sturdy and elegant finishing touch for staircases and decks.

MERBAU BOTTOM RAIL
66 x 66 x 5.4m

Durable, stable, and pest-resistant, Merbau Bottom Rails feature a finger-jointed design for enhanced strength & structural integrity.

With their rich natural beauty, they are the perfect choice for decking and balustrades.

MERBAU REBATED MID RAIL FJ
66 x 66 x 5.4m

The Merbau Mid Rail Finger Joint blends natural beauty with precision engineering.

Its rich colour and grain add warmth to your outdoor handrail systems, ensuring lasting performance and style.

MERBAU SOLID DECKING

SIZE	LENGTH
90 x 19	Random
140 x 19	Random

Merbau hardwood decking is highly regarded for its exceptional natural durability and strength

Their continuous natural grain enhances aesthetics, making them a premium choice for long-lasting, high-quality outdoor decking.

MERBAU FJ DECKING

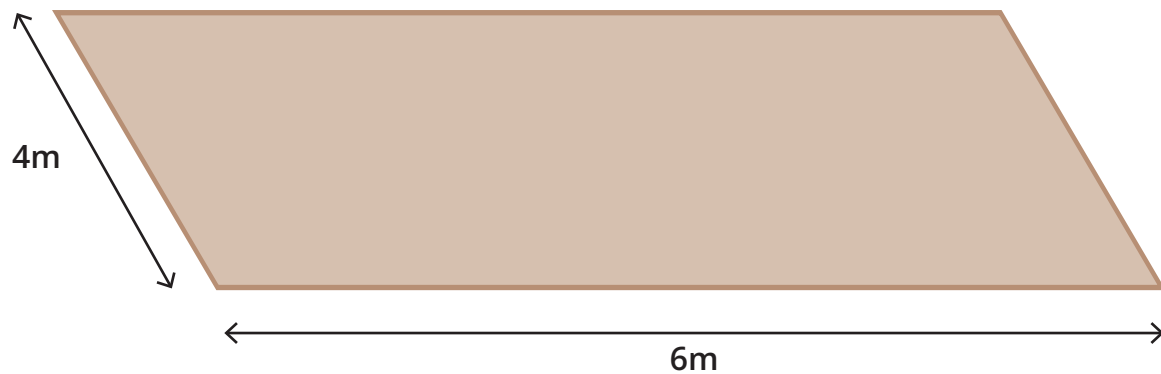

SIZE	LENGTH	
90 x 19	5.4m	5.7m
140 x 19	5.4m	5.7m

Merbau hardwood decking is highly regarded for its exceptional natural durability and strength

Finger-jointed Merbau decking offers a cost-effective and eco-friendly alternative to solid boards while maintaining the durability of natural Merbau.

DECKING CALCULATOR

90 x 19 x 5.7m

140 x 19 x 5.7m

Measure Your Deck Area

If your deck is 6m long and 4m wide, the total area is 6m long and 4m wide, multiply them to get the total square meters (m²) - **6m × 4m = 24m²**

Choose your decking board size - add 5mm gap between the boards to

- 90mm wide (0.090m) + 5mm = **0.095m**
- 140mm wide (0.140m) + 5mm = **0.145m**

24m² of 90mm would be: 24 divided by 0.095 = 252.63 or **253 LM**

24m² of 140mm would be: 24 divided by 0.145 = 165.51 or **166 LM**

Add 10% for timber wastage times the LM x1.1

Divide the new LM by the set length (5.7m), and that will give you the amount of boards you need.

253 x 1.1 = 278.3 / 5.7m = 49 lengths of 90 x 19 x 5.7m

166 x 1.1 = 182.6 / 5.7m = 32 lengths of 140 x 19 x 5.7m
